Profile

Passionate Software Engineering student with hands-on experience in building full-stack web applications using the MERN stack (MongoDB, Express.js, React, Node.js). Strong foundation in modern front-end development, RESTful APIs, and database design, with practical experience developing responsive and scalable projects. Comfortable working with Git-based workflows and writing clean, maintainable code. Currently seeking a Full-Stack Development internship to apply my technical skills in real-world environments and further strengthen my backend and system design expertise.

Skills

- Full-Stack Web Development (MERN)
RESTful API Development,
Database Schema Design
Authentication & Authorization
Responsive UI Development
Version Control & Collaboration
